

Site Manager Ipswich

Overview

BPUK have a vacancy for the position of Site Manager at our Ipswich facility.

Ipswich is permitted to process circa 65,000t of Incinerator Bottom Ash from the adjoining SUEZ EFW.

Personal Attributes

The successful candidate, will be quality driven and a self-motivated individual, focused on delivering targets at the highest level. Good communication skills are essential as is the ability to continually develop a strong site team. Developing relationships with individuals both internally and externally is of high importance while portraying a professional image as a key representative of the business.

The individual must have a firm knowledge of the company policies and compliance requirements as well as a strong ethic towards Health and Safety for their team and the business.

I would therefore invite written applications from any employee that would be interested in applying for this role. The application can be in any format but within the document I would like to know why you are applying for the position, what you will bring to the site and your aspirations for your future career with Blue Phoenix.

Please send your CV with a covering letter of application to:
